Virtual dance party and Live DJ sponsored by Visual Conductor, experiential design studio / virtual events.

All proceeds will be donated to **Water For People**, who is bringing safe drinking water to people in developing countries.

CLIMATE CHANGE AND WATER ARE INEXTRICABLY LINKED

Cobalt Water Global, in partnership with Climate Week NYC, is organizing the 3rd NYC Water and Climate water charity event to make the links between water and climate change, share what is being done in NYC and globally in terms of climate action in the water sector, and what you can do to help mitigate climate change with better water management. This is a great opportunity to take action during Climate Week NYC and help those without safe drinking water and sanitation.
