WEEK
NYC**

An official Climate Week NYC Event

**SEPTEMBER 26
6:00 - 8.30PM**

WEWORK DUMBO HEIGHTS
81 Prospect Street, Brooklyn, NY

WHO Water and non-water professionals, tech leaders, and entrepreneurs to network and brainstorm on how to tackle the water and climate change nexus.

WHAT Brief talks/panel discussion on climate smart water management in cities.

TICKETS

available online

Click above for tickets and more info or search "NYC Water" on eventbrite.com
\$30 includes dinner and drinks.

The reception will continue on our rooftop with amazing views of the whole city.

All proceeds will be donated to **Water for People**, who is bringing safe drinking water to people in developing countries.

CLIMATE CHANGE AND WATER ARE INEXTRICABLY LINKED

Cobalt Water Global, in partnership with WeWork and Climate Week NYC, is organizing the second NYC Water and Climate water charity event to make the links between water and climate change, share what is being done in NYC and globally in terms of climate action in the water sector, and what you can do to help mitigate climate change with better water management. This is a great opportunity to take action during Climate Week NYC and help those without safe drinking water and sanitation.
